Lepers Use Medicine of Unknown Power.

BOARD WANTS THE FORMULA

Lepers Believe That the Goto Remedies Do Them More or Less Good.

Medicines have been in constant use at the leper settlement for many years, the chemical ingredients of which are not even known to the Board of Health, Hauser, Henry the physicians there or to the lepers Howland, L C who swallow them. Further than this they are medicines of Japanese manu- Ingersoll, Alson E facture, the secret of which remains Jaqua, R L with those who make and sell them and nothing is known here as to what is contained in them.

The lepers have faith in the medicines, and therefore they have come to believe that the hot baths, which is a part of their treatment, are not efficacious unless the nostrums are pour-

ed into the water. Attorney-General Dole stated in yesterday's Board of Health meeting that faith sometimes had as much influence in the effecting of cures as medicines, and if the settlement people thought they were benefited by the Goto remedies he believed in letting them continue to enjoy them. If the medicines were withdrawn the people would probably lose their faith in the hot baths. It was stated by Secretary Wilcox

that the medicines cost the Board someeither make), constantly on hand. where in the neighborhood of \$900 a year. Dr. Emerson said he did not know that the medicines had ever done the people any harm. The secret remedies came in three kinds of packages; one as a powder for tea; another in the form of pills, and the third as a fluid to be added to water. Dr. Raymond thought the Board

should have a chemical examination made of the medicines., Dr. Cooper should allow a medicine to be used at the settlement without knowing what it was. Dr. Raymond suggested having the manufacturers submit the formula to the Board. Mr. Dole did not believe in making public a secret formula. Dr. Raymond said he was in favor of paying out good money only for something they knew about.

"We are dealing with human nature." said Dr. Emerson, "in a peculiar form. I think there are strong reasons for coming down to the ordinary plane of human nature and using remedies to please the people, medicines which so far have proven harmless. I believe it the part of wisdom to continue giving these medicines."

Mr. Dole moved that the medicines be contined in use, and that the Secretary be instructed to request the manufacturers to submit the formula under the pledge of the Board that they will preserve the secret.

The executive officer said he had received no word from the Board of Trustess of Oahu College relative to rendering sanitary the laundry on the college premises, and suggested that the forty-eight-hour notice be served. At this juncture President A. M. Smith of the college came into the room, and explained that the Board of Trustees' intended presenting the ultimatum of the Board of Health when they met. There were certain changes to be made in the building, and he assured the Board of Health the laundry would be put in a sanitary condition.
